Choosing Wisely: Autoimmune Disorders

In 2012 Choosing Wisely was launched in the United States with the goal of advancing dialogue on avoiding wasteful or unnecessary medical tests, treatments, and procedures. Modeled after this campaign, and organized by a team of leading Canadian physicians, Choosing Wisely Canada (CWC) aims to help clinicians and patients engage in conversations about unnecessary tests and treatments, and make smart and effective choices to ensure high-quality care.

Choosing Wisely Recommendations:

Choosing Wisely Canada List for Rheumatology:  Five Things Physicians and Patients Should Question
Choosing Wisely Canada List for Gastroenterology:  Five Things Physicians and Patients Should Question
American Acad. of Allergy, Asthma, & Immunology:  Ten Things Physicians and Patients Should Question
American Academy of Neurology:  Five Things Physicians and Patients Should Question
American Association for the Study of Liver Diseases:  Five Things Physicians and Patients Should Question
American College of Rheumatology – Pediatric Rheumatology:  Five Things Physicians and Patients Should Question
Australasian Society of Clinical Immunology and Allergy:  Tests, Treatments, and Procedures Clinicians and Consumers Should Question
Gastroenterological Society of Australia:  Tests, Treatments, and Procedures Clinicians and Consumers Should Question
